- Gold Shovel Standard Certified
- ISNetwork (400-311219) "A"
- Avetta Certified (250402910)

KEY CLIENTS

- City of Palo Alto Utilities
- City and County of San Francisco Public Utilities Commission
- Truckee Donner Public Utility

COMPANY OVERVIEW

VIP Powerline Corp delivers specialized overhead and underground construction services for electric utility systems rated at 60kV and above. Supported by experienced project and construction management teams, highly skilled field personnel, and an extensive equipment fleet, we ensure the safe, efficient, and reliable execution of energized and de-energized distribution and transmission projects.

CORE COMPETENCIES

- Energized and de-energized overhead and underground distribution and transmission construction, maintenance, and repair.
- 24/7 emergency and storm response.
- Comprehensive line and equipment inspections.
- QEW-qualified services and technical consultations.
- Engineering, Procurement, and Construction (EPC) project delivery.

EXPERIENCE

City and County of San Francisco Public Utilities | OH/UG high-voltage distribution powerline construction and maintenance, streetlight upgrades and replacements & emergency response.
